

No Password Required Podcast: Application Pen Tester, Author, and Bug Bounty Enthusiast

December 10, 2024

No Password Required Podcast: Application Pen Tester, Author, and Bug Bounty ...

The *No Password Required Podcast* is dedicated to introducing and celebrating the practitioners, leaders, researchers, and individuals who are shaping the cybersecurity industry. Join us for an in-depth conversation that explores our guests' personalities, expertise, and the path that led them into cybersecurity. The team also discusses current cyber threats and readiness tips for security

professionals and business leaders alike.

Dr. Sunny Wear began her career as a developer, spending countless hours maintaining others' code—a humbling experience, as she describes it. Realizing she wanted a different path, a friend suggested exploring cybersecurity at just the right time. Together, they tackled the CISSP exam, which Dr. Sunny passed, igniting her passion for application penetration testing.

Now an accomplished author and proud bird mom, Dr. Sunny discusses her *Burp Suite Cookbook*, a practical guide to identifying, testing, and exploiting vulnerabilities in web applications and APIs.

The show begins with Jack Clabby of Carlton Fields, joined by resident cybersecurity expert Kayley Melton, analyzing the Star Health Insurance (India) data breach, where the company's CISO has been accused of selling sensitive data for \$43,000.

Presented By

John E. Clabby
