

Seven Phrases That Can Help Your Business Avert Cybersecurity Attacks

January 31, 2020

Carlton Fields cybersecurity and privacy attorney Patricia M. Carreiro authored an article in the *Miami Herald* providing best practices for businesses on how to avoid cyberattacks. In the wake of several noteworthy ransomware attacks in Florida in 2019, Carreiro provided a list of simple steps that “can go a long way in preventing and mitigating the consequences of these types of attacks.” READ: *Miami Herald*, “[Here are seven phrases that can help your business avert cybersecurity attacks](#)”
