

Nonprofit Organizations

Overview

We represent nonprofit, philanthropic, and tax-exempt organizations throughout the United States. We help nonprofit organizations report to the public/government, obtain and maintain their tax-exempt status, and manage their contractual relationships. As their corporate and tax counsel, we work collaboratively with each organization's board members and management.

Additionally, our government law team identifies, tracks, analyzes, and summarizes legislative proposals and political and policy considerations, assessing their impact on nonprofit client operations. They also assist in drafting legislation and amendments to legislation, help pass or defeat legislative proposals, and use their extensive political relationships for the clients' benefit.

Our services include advising on:

- IRC Section 501(c) corporate governance issues
- State nonprofit law updates
- Tax exemption
- Mergers and acquisitions
- Financing arrangements
- Contracts with technical, financial, and other vendors
- Day-to-day operational contracts and agreements
- Nonprofit and for-profit relationships
- Charitable contributions, trusts, and endowments
- Intellectual property contract evaluations and litigation
- Employment contracts
- Benefit and compensation plans
