Overview

Gary Slinger is an information technology and security professional with more than 30 years of experience in IT security, operations, and project management. Since joining Carlton Fields in 2013, he has focused on information security, personnel security, ISO standardization, and business continuity.

In addition to training in physical asset protection and personnel and corporate security, Gary holds many industry-recognized cybersecurity credentials.

Gary assists the firm's attorneys as part of the Cybersecurity and Privacy Practice.
