<p><b>Explanatory Notes:</b> This "budget" represents an estimate as to what various tasks might cost over the course of the lawsuit. Our predicted and recommended tasks to be performed in the next 30 days are likely to be more accurate than our projections beyond 30 days, because of the numerous variables that go into the budgeting process, some of which we can predict and control and some of which we cannot. All changes, of course, can have a material impact on the costs and expenses associated with the resulting work to be done.</p>
