Overview

Christina Gagnier is an experienced technology lawyer whose practice focuses on cybersecurity and privacy, blockchain technology, international regulatory affairs, technology transactions, and intellectual property. Her privacy practice includes counseling clients on compliance with the European Union's General Data Protection Regulation (GDPR), the California Consumer Privacy Act (CCPA), and the federal Children's Online Privacy Protection Act (COPPA), as well as data breach prevention and response. Christina is a nationally recognized thought leader on laws governing online harassment, including nonconsensual pornography and cyberbullying. She has served on notable committees studying technological issues, including the Federal Communication Commission's Consumer Advisory Committee.

Christina advises clients on digital strategy to help them navigate uncharted legal territory. She guides a variety of technology companies and consumer brands through emerging legal and policy issues such as digital currency, the sharing economy, network neutrality, and the ever-changing area of consumer privacy law. Her work includes crafting company compliance strategies and employee training to support compliance. Prior to becoming a lawyer, Christina worked in crisis communications, a background that informs her approach to assisting clients with their responses to data breaches and other events.

Christina served as a member of the California attorney general's Cyber Exploitation Task Force. In addition, she was designated as a subject-matter expert on cyber exploitation for California's Commission on Peace Officer Standards and Training.

Outside her practice, Christina is an adjunct professor at the University of California, Irvine School of Law, where she serves as clinical faculty for the Intellectual Property, Arts, and Technology Clinic. She teaches the only privacy law class offered at UCI Law. Christina's primary research involves cyber rights and the intersection of online and offline action. Her academic publication "On Privacy:

Liberty in the Digital Revolution” examines the right to privacy in the internet age. Christina is a certified California mediator experienced in alternative dispute resolution, and she is accredited by the U.S. Department of Veterans Affairs to assist veterans with claims.

Christina is a frequent speaker and author on issues involving internet law. She has authored articles in *HuffPost*’s technology section and columns on legal ethics on the web and internet law topics for *California Lawyer*, and she served as the host for “Techwire” on the California Channel. She is frequently invited to join panels discussing issues such as information privacy and data, blockchain and cryptocurrency, law in the digital age, and international data regulation.

She has appeared on NBC’s “Press:Here” and on radio stations including KCBS in San Francisco and WCCO in Minneapolis, and she has been quoted by *AlterNet*, *Ars Technica*, *The Atlantic*, *The Boston Globe*, *Buzzfeed Inc.*, *MIT Technology Review*, *MSNBC*, *NBC News*, *The New York Times*, *Politico*, *The Recorder*, *The Mercury News*, *TechCrunch*, and *The Verge*. She is featured in the documentary about the startup world “Ctrl+Alt+Compete” and enjoyed briefly flashing across the screen in b-roll in BBC’s Steve Jobs documentary.

Passionate about technological education, Christina serves as the CEO of the Link Americas Foundation, which aims to improve digital literacy across the United States, Canada, and Central and South America. She is also the CEO of Know Before You Go, an organization that grants scholarships for college visits.

In her local community, Christina serves as the secretary and member of the board of directors of the Chino Valley Chamber of Commerce. She is also the vice president of the governing board for the Chino Valley Unified School District and was one of the first candidates for public office to accept bitcoin.

Christina is licensed to practice in California, District of Columbia, and New York.

Experience

- Represented and built privacy compliance programs in the cosmetic and consumer goods space for companies across the United States to comply with the European Union’s General Data Protection Regulation (GDPR) and the California Consumer Privacy Act (CCPA).
- Represented large software-as-a-service company in enforcement action for violations of Section 5 of the Federal Trade Commission Act.
- Represented geolocation firm in regulatory query involving the Children’s Online Privacy Protection Act (COPPA).
- Defended victims of online harassment, obtaining critical legal protections and removing harmful content from the internet.
- Represented indie video game company in acquisition of gaming technology from premier online game development studio.
- Managed data breach crisis communications and stakeholder queries related to large-scale data breach.
- Conducted internal investigations for companies related to the Computer Fraud

and Abuse Act (CFAA).

- Represented mobile application development company in management of its vendor contracts and obligations related to data controlling and processing.
